EXAMINER'S AMENDMENT

1) An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

IN THE SPECIFICATION:

On Page 1 Line 1 First paragraph of the specification please insert the following:

--This application is a 371 of PCT/DE01/01116 filed on 3/22/2001--.

REASONS FOR ALLOWANCE

2) The following is an examiner's statement of reasons for allowance: Upon receipt and review of examiner's previous final rejection (9/5/06) and claim amendment filed by applicant it is the examiner's position that applicants have now clearly amended their claims as to avoid any new matter based on information ascertained by Figures 1 and 3 as well the limitations put forth overcoming the prior art of record and cited by examiner.

The prior art as noted is silent regarding the specific regions or locations as prescribed in product claim 10 or method claim 19 with respect to the "first monocrystalline region and the first polycrystalline region whereby are adjacent to and coplanar with one another in a side by side manner" as they are limited based on their limited interaction of the "wherein the covering plane includes a first monocrystalline region epitaxially grown on an underlying second monocrystalline region and a first polycrystalline region epitaxially grown on an underlying first polycrystalline starting layer".

These unobvious differences as distinctly marked in the claims affirms to the examiner that the case is now in condition for allowance.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should

preferably accompany the issue fee. Such submissions should be clearly labeled

“Comments on Statement of Reasons for Allowance.”

Any inquiry concerning this communication or earlier communications from the examiner should be directed to G. Nagesh Rao whose telephone number is (571) 272-2946. The examiner can normally be reached on 9AM-5PM.
